PROFESSIONAL SUMMARY

Software engineer (B.E. in Artificial Intelligence & Machine Learning, CGPA 8.19/10, First Class with Distinction) specializing in **backend development and applied AI**. Builds reliable **REST APIs** and database-driven applications with **Python, Django, Django REST Framework, Flask, and SQL**, with hands-on exposure to **LLMs, computer vision, and speech recognition**. Experienced in **authentication, role-based access control**, API testing, debugging, and **Agile** delivery. Strong **Data Structures & Algorithms** foundation (250+ LeetCode problems). Collaborative, fast-learning engineer focused on writing reliable, secure, and maintainable software.

EDUCATION

B.E. in Artificial Intelligence and Machine Learning

2021 – 2025

South East Asian College of Engineering and Technology | CGPA: 8.19/10 | First Class with Distinction

TECHNICAL SKILLS

Languages & Fundamentals: Python, SQL, Data Structures & Algorithms, Object-Oriented Programming

Backend & APIs: Django, Django REST Framework, Flask, REST API Design & Development, Authentication, Role-Based Access Control, CRUD, Email Notification Workflows

Web & Front End: React Native, HTML, CSS, Full-Stack Application Development

AI / ML: Large Language Models (LLMs), Machine Learning, Computer Vision (OpenCV, MediaPipe), Speech Recognition

Databases: MySQL, SQLite, SQL Queries, Relational Database Design

Testing & Debugging: Unit Testing (Django Testing), API Testing (Postman), Debugging, Troubleshooting, Code Reviews

Practices & Tools: SDLC, Agile/Sprint Development, Secure Coding Practices, Git, GitHub

EXPERIENCE

Python Full Stack Intern | JSpiders

Jan 2025 – May 2025

- Built and shipped full-stack features with **Python, Django, and Django REST Framework** across the **software development lifecycle** (design, coding, testing) in a sprint-based **Agile** team.
- Developed and consumed **REST APIs** and wrote **SQL queries** to power database-driven application workflows.
- Wrote and ran **unit and API tests** with Django testing and Postman to validate functionality and catch defects early.
- Debugged and troubleshot** application issues and improved code quality through peer **code reviews** and systematic problem solving.
- Collaborated with teammates, communicating progress and issues and sharing knowledge to solve problems together.

PROJECTS

CorpDocs – Document Collaboration Platform

github.com/Hashidvr/CorpDocs-Platform

Django REST Framework, React Native, LLM, SQLite, REST APIs, Postman

- Built a **document collaboration platform** with document creation, editing, **version history**, user mentions, and access control.
- Designed and implemented **REST APIs** for document management and backend workflows.
- Implemented **authentication and secure access control** to protect private and shared documents and respect **user privacy**.
- Validated functionality with **Postman API testing and Django unit tests**.
- Developed an **email notification workflow** for user mentions; built the **React Native** front end and used **LLMs** in the development workflow.

Voice-Assisted Gesture-Based Drawing Tool

github.com/Hashidvr/VOICE-ASSISTED-GESTURE-BASED-DRAWING-TOOL

Python, OpenCV, MediaPipe, Speech Recognition

- Built an interactive Python application integrating **computer vision and speech recognition** to enable drawing through hand gestures and voice commands.

Student Management System

github.com/Hashidvr/STUDENT-MANAGEMENT-SYSTEM

Flask, MySQL, SQL, Role-Based Access Control

- Developed a **Flask + MySQL** backend with CRUD operations, authentication, **role-based access control**, and database-driven workflows.
- Used **SQL queries** for efficient retrieval and management of records; designed to handle **500+ student records**.

CERTIFICATIONS

- Building a Generative AI-Ready Organization**, AWS Training & Certification, June 2025 | [View certificate](#)
- Machine Learning Terminology and Process**, AWS Training & Certification, June 2025 | [View certificate](#)
- HTML/CSS Skills Test**, TestDome: passed, top 25%, July 2025 | [View certificate](#)

ACHIEVEMENTS

- Best Base Paper Award**, National Conference (Pravarthana), 2024
- Solved **250+ problems** on LeetCode, strengthening **Data Structures & Algorithms** and problem-solving skills
- Earned the **LeetCode 100 Days Badge** for consistent daily problem solving
